WELCOME

Dear Parents!

We are living in an era of falling standards in Education

Education is made a commodity and institutions are becoming market places

The entire world is worried about the quality of Education, which is at stake, where schools and colleges are churning out students, who can not put on paper or communicate properly whatever they know or learn, except few intuitive. After studying in schools, spending time, money and energy, if this is the situation mostly, what else they can become in future ?

After schooling, aspiring to become something of their own self, students enter into their launching pad, Intermediate course, laying future path of interest, choosing from the ocean of subjects varied in nature.

We at our Junior College are determined to FILL THE GAP OF LACK OF BASICS WITHIN THE FIRST COUPLE OF WEEKS AND MAKE THEM PROFICIENT IN WORD, SENTENCE AND LANGUAGE WHICH IS MISSED AT SCHOOL, to put on paper their creative brain with a flow, leading to an edge to face the competitive examinations, perfecting in the subject as a whole but not mugging up limited questions and answers, which generates only dull heads.

Thousands of crores of rupees are draining out every year either by the governments or private organizations and unlimited human hours and energies are being spent on education.

Our country or any nation or to-day's global village needs, healthy, disciplined, well read, well educated, talented, creative, self confident and honest young generation.

Such generation shall be groomed by concentrating with commitment, perfecting the basics also at College missed at School and making them ready to face any competition at higher levels and also to achieve perfection in their fields of life.

We have started Junior College to contribute our energies and resources in this direction.

I request you humbly, to utilise this opportunity by admitting your children to make their goals successful and appreciate our endeavour.

With the best wishes,

Nalla Malla Reddy

Secretary

WE FEEL

Education is nothing but preparing the students to be able to put on paper whatever is learnt, seen, heard, observed and thought about all around them in the world, with proper language in a communicative format, with attractive presentation moulding into the basis for scholarly persuasion in all fields of knowledge in life. Intermediate education is the launching pad to jump into the field of subject the students dream, where the DEFECTS IN THE ABOVE BASICS HAVE TO BE PLUGGED IN THE FIRST COUPLE OF WEEKS after they enter the College for their success in the competitive examinations, what ever they come across and also in future life.

INTERMEDIATE

After Schooling for about 13 years i.e Nursery to 10th class in school, students enter Intermediate which is the most important and crucial phase in education, in their youthful fervour with lot of enthusiasm and ambition, select their subject of interest, for which, these two years is the gate way, opening successful entry into various courses leading to professions of their interest.

In these days of speed and competition to get a seat in the subject selected, paving the way for successful career, Intermediate Education is the most crucial phase, where one has to be taught properly by cultivating discipline and hard work by bringing out their latent capacities arousing interest and creativity by preparing them capable of presenting themselves on their own with an ease on paper in their own language, the subjects learnt throughout the year in the competitive examinations, at the end of the course.

It is rampantly observed that the present day Intermediate education has mostly become not learning the subject thoroughly but mugging up of some topics or questions and answers which are felt important for the examinations in a regimented atmosphere. The student's creativity, initiative and subject knowledge are limited to a few question answers and the most precious, everlasting knowledge at this level, being the blue print for life time for brighter future is lost and forgotten.

This is where our [NALLA MALLA REDDY JUNIOR COLLEGE](#) decided to act upon, encourage and provide impetus bring out one's own talents to achieve their goal with the best of marks as well with allround improvement like writing, language, subject, health habits and discipline as well.

Most of you might have observed that after passing out Intermediate after a period of 13 years up to Secondary Education and two years of Intermediate, many of the students are unable to write an application or few sentences properly and without mistakes though the marks percentage is 70 to 95%. It is the most frustrating situation.

This situation has to be thought over by one and all instead of lamenting.

Here, We in our [NALLA MALLA REDDY JUNIOR COLLEGE](#) shall pave the way for over all development of the students with self confidence and competitive spirit to achieve their goals.

OUR MISSION

To concentrate on the basics creating a conducive atmosphere for learning.

To design curriculum covering a wide range of learning experiences stressing on writing, reading and listening skills.

To provide an opportunity for personal development in a wide range of academic, cultural, social, literary, communicative and creative activities.

To accommodate and encourage the students with different ability levels on the same platform and improve.

To prepare courageous, self confident, self respecting, caring and sharing responsible citizens with good behaviour and discipline.

To make socially responsible, honest and concerned citizens.

To encourage and provide opportunity to boost up leadership qualities to withstand any challenge in real life and compete regionally, nationally and globally with strong language base in regional, national and international levels.

INTRODUCTION TO JUNIOR COLLEGE

Nalla Malla Reddy Junior College is situated in a pleasant and delightful surroundings of Divyanagar near Warangal highway connected by a Highway like B.T. Road.

It has a beautiful three storeied building offering individual digital classrooms and accommodation for about 900 students. Nalla Malla Reddy Junior College caters spacious campus for students in a very near future.

Nalla Malla Reddy Junior College welcomes the students with a friendly, conducive atmosphere and encourages development among them.

The Junior College will be having the following facilities -

- Fully fenced secure grounds
- Laboratories for Physics, Chemistry, Biology and Computers, Multimedia room, Medical room, Play grounds and Canteen are provided separately.
- Library with rich collection of books from all over the world in three languages English, Hindi, T e l u g u and Magazines & News papers.
- Spacious Digital Class rooms.
- Separate boys and girls hostels with all infrastructural facilities under the guidance of well experienced wardens.
- Our mess furnishes with traditional home made food with all flavours followed by different menus daily.

JUNIOR COLLEGE ORGANIZATION

Normally, we try to group students in classes according to their age and ability but this depends on members admitted in each academic year.

Innovative teaching methods are used within the college.

- Class lessons
- Group work
- Individual teaching
- Regular student assessment
- Regular writing & Reading

ADMISSIONS

Prospective parents are encouraged to visit the junior college on every Saturday afternoon during working days, so that they can meet the Lecturers and students and experience exciting range of activities and the close family atmosphere that makes Nalla Malla Reddy Junior College the very best college for boys and girls.

Students are accepted in Junior Inter and Senior Inter. First preference will be accorded to their discipline and behaviour and shall have no pre-testing practices.

CURRICULUM

The curriculum is broad, varied, challenging, balanced and flexible and is aimed at evaluating the student's needs and developing their full potential.

The main Board Examination for Senior Intermediate and the courses leading to this are normally provided along with introductory courses for future competitiveness.

English is the medium of instruction in teaching. For all the classes basics are stressed. Mentoring is done for each student based on their performance and checked daily in each subject. A separate evaluation cell looks after every student's academic progress on daily basis.

TEACHING METHODS

Curriculum is dealt with modern teaching methods. Class teaching becomes interesting with the usage of modern aids along with individual research to learn the topics using reference books and other text books from the State Board syllabus. Thus, it helps a student to attain perfection in the topics covered in any subject.

CLASS ORGANISATION

Each class has a minimum student strength of 60 and all classes work to the individual student abilities.

ASSESSMENT, PROGRESS AND REPORT

The curriculum requires lecturers to assess their students by using the target levels found in the subjects. We recognize the importance of assessment but we are also concerned that any assessment reported to parents should not only describe a student's academic performance but also provide an all round picture of the student's development in all areas of the competitive world. Part of our own assessment procedure involves the student in the assessment of their self progress. Parent lecturer meeting is held regularly so that lecturers can share their observations and assessments with parents.

Results are issued at the end of each examination. We hold parent lecturer meeting after every examination where you can discuss progress with your child's teacher.

If, for any reason you wish to discuss about your ward at times other than parent lecturer meeting, please do not hesitate to make an appointment. This will ensure that either the Principal or the Lecturer concerned will be available to see you. Parent lecturer meeting enable parents familiar with curriculum, progress patterns and students attitude.

RULES TO FOLLOW

- Share and care for others.
- Stop and listen when adult is speaking.
- Raise your hand to take your turn to speak.
- Remember to say 'please' and 'thank you'.
